

7th Annual Brain Tumor Symposium

Current & Emerging Treatment Approaches for
Central Nervous System Metastases

Featured Guest Speakers:

Mark H. Bilsky, MD

Vice Chairman for Clinical Affairs in Neurosurgery
Director of the Multidisciplinary Spine Tumor Center
Memorial Sloan Kettering Cancer Center
New York, NY

John Suh, MD

Chairman of the Department of Radiation Oncology
Associate Director of the Gamma Knife Center at the
Brain Tumor and Neuro-Oncology Center
Cleveland Clinic
Cleveland, OH

Priscilla Kaliopi Brastianos, MD

Assistant Professor of Medicine, Harvard Medical School
Director of Central Nervous System Metastases,
Divisions of Hematology/Oncology and Neuro-Oncology
Massachusetts General Hospital
Dana-Farber/Harvard Cancer Center
Boston, MA

7th Annual Brain Tumor Symposium

Current & Emerging Treatment Approaches for Central Nervous System Metastases

Friday, October 27, 2017 | 7:45AM - 4:15PM

**DoubleTree by Hilton Hotel Philadelphia Center City
237 South Broad Street | Philadelphia, Pennsylvania 19107**

This year's symposium focuses on the increasing prevalence of central nervous system metastases and the controversies surrounding the rapid development of multimodal therapies including the roles of surgery, whole brain radiation, stereotactic radiosurgery, and targeted immunomodulatory systemic therapies.

Attendees will evaluate each of these modalities throughout morning didactic sessions and customize treatment for patients with single and multiple brain metastases during an interactive multidisciplinary tumor board session. The afternoon program will split into two tracks, tailoring information for physicians and nurses and allied health professionals.

Target Audience: Neurosurgeons, neurologists, medical oncologists, neuro-oncologists, radiation oncologists, advanced care providers, nurses, nurse practitioners, physician assistants, hospitalists, oncology social workers and pharmacists, and allied health professionals.

Key topics include:

- *The Future of Systemic Therapies for CNS Metastases*
- *Is There Still a Role for Whole Brain Radiation in the Treatment of Brain Metastases?*
- *Multimodal Therapy for Spinal Metastases*
- *Role of Surgery in the Treatment of Brain Metastasis*
- *Stereotactic Radiosurgery: From "Experimental" to "Standard of Care"*

**Vickie and Jack Farber Institute for Neuroscience at Jefferson
Department of Neurological Surgery Course Co-Directors**

**David W. Andrews, MD, FACS
Lauren Barbieri, CRNP
James J. Evans, MD, FACS**

**Christopher J. Farrell, MD
Kevin D. Judy, MD, FACS**
