# A Multidisciplinary Approach to Challenges in Hypertension Management

Friday, June 7, 2019 | 8am–1pm

Dorrance H. Hamilton Building | 1001 Locust Street, Philadelphia, PA 19107

Over the last decade, hypertension has risen to the leading global disease and its management can be especially challenging in patients with comorbidities. Despite increased awareness and improved treatment, the prevalence of hypertension is rising and controlled rates are stagnant.

This educational program reviews the latest clinical guidelines from the American College of Cardiology and the American Heart Association, raising important questions about hypertension diagnosis, treatment and best practices. It addresses challenges from the viewpoints of Internal Medicine, Nephrology and Cardiology.

## Topics include:

- Approaches to Prevention, Detection, Evaluation and Management of High Blood Pressure
- Hypertension Management in Patients with Chronic Kidney Disease & Cardiac Disease
- Non-Adherence to Medication

## Target Audience

This course is designed for all healthcare professionals specializing in Family Medicine, Internal Medicine, Cardiology and Nephrology.

For more information and to register\* visit [CME.Jefferson.edu](http://CME.Jefferson.edu)
