2nd Annual Hypertension Symposium: Challenges in Hypertension Management

Virtual
Meeting!

Friday, November 20, 2020 | 8:00am–1:30pm

Over the last decade, hypertension has risen to be the leading global disease and its management can be especially challenging in patients with comorbidities. Despite increased awareness and improved treatment, the prevalence of hypertension is rising and controlled rates are stagnant.

This educational program examines the latest clinical guidelines from the American College of Cardiology and the American Heart Association, raising important questions about hypertension diagnosis, treatment and best practices. It addresses challenges from the viewpoints of Internal Medicine, Nephrology and Cardiology.

Topics include:

- Hypertension and Stroke
- Endocrine Hypertension – Hyperaldosteronism
- Hypertension in the Era of Cardio-Onco-Nephrology
- Drug Induced Hypertension
- Hypertension in Diabetes: SGLT2-Inhibitors and Cardiorenal Benefits
- Hypertension in Pregnancy and Beyond
- Hypertension and Cardiovascular System in the Time of the COVID-19 Pandemic

Target Audience: This course is designed for all healthcare professionals specializing in Family Medicine, Internal Medicine, Cardiology, Nephrology, Neurology, Endocrinology, and Obstetrics.

For more information and to register visit CME.Jefferson.edu or call 1-877-JEFF-CPD.

Registration Fees: Non-Jefferson Healthcare Professional - \$35.

Jefferson Health Faculty and Staff - \$25, Residents & Fellows - Complimentary
