4th Annual Diabetes Symposium: New Advances and Trends

This year on Thursday, October 15, 2015! | 8:00 am - 3:00 pm

The **4th Annual Diabetes Symposium** offers a unique educational and learning experience through lively panel discussions and case presentations with world renowned faculty in the field of endocrinology. Cases will be discussed and debated from multiple perspectives providing participants with clinical pearls for diagnosing and managing Type 1 and Type 2 diabetes, as well as cardiology and nephrology related co-morbidities.

You don't want to miss this opportunity to...

- Gain insight from the key thought leaders involved in developing the national clinical guidelines for diabetes management.
- Witness firsthand how experts in the field manage difficult and controversial cases in the treatment of diabetes, as well as their rationale for treatment modalities.
- Glean clinical pearls from the experts to apply to your practice setting to improve the delivery of care and outcomes for your diabetic patients.
- Network with expert faculty and others in the field throughout the symposium.

TARGET AUDIENCE:

Endocrinologists, primary care physicians, nurse practitioners, physician assistants, nurses, certified diabetes educators dietitians and trainees.
