

Berk/Bockus Honorary Lecture and Grand Rounds 2016
Wednesday, November 16, 2016

Course Objectives

At the conclusion of this course, participants should be able to:

1. Describe and discuss the epidemiology and pathophysiology of colonic ischemia
2. Recognize the clinical presentation and evaluation of a patient with colonic ischemia
3. Summarize and provide best practice algorithmic approach to the diagnosis, work up and management of acute and chronic colonic ischemia
