

## Fundamental Critical Care Support - Winter 2020 - Hybrid Program

Friday, December 11, 2020

**\*\*SKILLS STATIONS\*\***

### Course Objectives

At the completion of the course Skill Stations, learners should be able to:

- Judge assessment needs for the critically ill or injured patient.
- Select appropriate diagnostic tests for the critically ill or injured patient within the first 24 hours of care.
- Employ appropriate responses to significant changes in the unstable patient.
- Employ evidence-based critical care management of acute life-threatening conditions in the critically ill or injured patient.
- Evaluate the need for expert consultation and/or patient transfer.
