

5th Annual Jefferson Sialendoscopy Course
Saturday, September 10, 2022
Jefferson Alumni Hall, Campus of Thomas Jefferson University
Philadelphia, PA

Course Objectives

At the conclusion of the program, the participants should be able to:

- Develop strategies to treat and manage salivary gland disorders.
- Examine the advantages of sialendoscopy in patients for whom this minimally invasive procedure would be most appropriate.
- Use current evidence-based practice guidelines in specific strategies to incorporate sialendoscopy and hybrid techniques into practice.
- Discuss the algorithm for management of stones based on size and location.
- Analyze the proper instrument handling and surgical techniques in sialendoscopy.
- Formulate the appropriate management plans based on potential complications of sialendoscopy and hybrid approaches.
